## M101M8, 10.1-inch Rugged Tablet PC ARM-based

## A Rugged Tablet that Can Survive Any Environment and Get Real Work Done

M101M8 is a rugged tablet PC with robust set of features designed to withstand industrial use while providing high tech solutions that increase productivity, improve safety, and reduce operational costs. The processing power comes from ARM Cortex A53 Octa Core processor with Android 7.0 OS. The tablet features a brilliant, in-plane switching with direct optical bonding, projected capacitive touch screen, which is outdoor viewable and offers 1280 x 800 pixel resolution. Weighing at just 2.18 pounds (approx. 990 grams) the M101M8 delivers lightweight mobility in a rugged tablet.

## Highlights

- ARM Cortex A53 Octa Core Processor
- 10.1" 1280 x 800 LED Panel with direct optical bonding
- Android 7.0 OS
- NFC Reader
- IP65 waterproof and dustproof
- Rated for extreme temperature use
- Optional 2D Barcode Reader

#### Drawing <sup>6</sup>

#### 

Do Not Expose the Battery Pack to Excessive Heat, or Extreme Heat (Near Fire, in Direct Sunlight for example)

Caution hot or cold environments

- 1. Total usable memory will be less depending upon actual system configuration.
- 2. SOTI is available upon request.
- Length measurements do not include protrusions. Weight varies with options.
   Measured at dimming LCD brightness. Varies depending on the usage conditions, or when an external device is attached.
- All the accessories are compliant with M101M4 series.
- 6. This is a simplified drawing and some components are not marked in detail.
